

EVT II Level Mechanic (Prefer Master Level)

Northwest Fire District offers competitive pay for a motivated and qualified individual who is interested in a full-time position in our Fleet Facility. The successful candidate will be responsible for preventative maintenance and repair of automotive and related equipment. Work requires considerable exercise of initiative and some independent judgment in maintaining service schedules and involves leading and guiding the Apprentice, EVT, EVT I, EVT II and the Mechanic Assistant (Helper). This position requires the incumbent to have personal tools and to be on-call on a rotation basis. For additional information, please refer to the job description on the District website, www.northwestfire.org.

Northwest Fire District offers competitive pay and a comprehensive benefit package!
Wage: \$ 22.95/hour - \$ 30.75/hour DOE

MINIMUM EDUCATION, EXPERIENCE, AND TRAINING (must have upon receipt of application, except where noted below)

This organization strives to maintain the most current certification requirements as specified by the EVT Level Certification Requirement Chart located on the EVT website, click [here](#).

Proof of ASE & EVT certifications for Levels I & II must accompany your application. The Master Level - III is desired at time of application, however, if the most qualified candidate is hired as an EVT-II Mechanic, the Master Level – III must be obtained within one-year from hire date.

EVT II Level - Grade 36	Master Level - Grade 38
<ul style="list-style-type: none"> ● EVT II Level Fire Technician Apparatus Certification 	<ul style="list-style-type: none"> ● Master Level Fire Apparatus Technician Certification ● A minimum of one (1) year Supervisory or Lead experience is required
<ul style="list-style-type: none"> ● High School diploma or GED equivalency; ● A minimum of four (4) years experience in automotive service work including some experience in servicing heavy equipment; and ● A Commercial Driver's License (CDL) with a tender or tanker endorsement <i>upon date of hire.</i> 	

Preferred:

- Fire Apparatus Technician and Ambulance Technician Master Level Certification (see EVT Fire Apparatus Technician and Ambulance Technician Master Level Certification requirements [here](#)).

ADDITIONAL REQUIREMENTS of INCUMBENT

Effective January 27, 2012, EVT II certified mechanic must obtain a master level EVT certification within one-year of hire date or promotion date. Should you be unsuccessful in obtaining the Master level certification within the specified timeline, your position will be downgraded and compensation will be adjusted accordingly. It is the responsibility of the incumbent to maintain current certifications during employment with Northwest Fire District at all times.

THIS POSITION WILL REMAIN OPEN UNTIL FILLED
